Our University

King Danylo University is a private higher educational institution, which with its twenty-year history of existence proves that quality education can and should be provided in Ukraine.

Every year the University not only grows numerically - new students and highly qualified lecturers - but always introduces educational innovations in an effort to be relevant to the requirements of the modern world.

As for the KDU, its measure has always been the Person who, choosing education, receives not only a high-quality education, but also increases his or her life's chances for professional realization, whether in the labour market or in his or her business.

The KDU is not just about the job market or successful graduates, here we are working together to create an ecosystem for the success of everyone who has joined our community.

We believe and we know we can do it together!

OUR MISSION:

We create an ecosystem for the development of a successful and enterprising personality.

OUR VISION:

- King Danylo University is the best university in Ukraine where the student is an active participant in the educational process and becomes a professional, who possesses relevant competencies and is competitive on the labour market.

- The University employs professors and staff with the necessary competence.
- The University interacts with employers and provides opportunities to improve the acquired knowledge in practice.
- The University is a platform for networking between employers, students, parents, entrants, graduates and the scientific community in Ukraine and abroad.
- The University is a venue for students to meet successful people who share their experiences.
- The University has its own business structures that allow students to intern and get a job.

OUR VALUES:

LOVE AND MUTUAL RESPECT

At our University, the dignity of the human being is the main factor in any interaction: we are guided by the love to our students, and we build relations of mutual respect between students, lecturers, principals and university owners.

FREEDOM OF THOUGHT

At our University, you can freely express your thoughts, views, beliefs and be sure that they will be heard and taken into account in making decisions that concern everyone.

OPENNESS AND TRANSPARENCY

The processes, that take place at our University and the decisions, that are made, are publicly available always after a public open discussion.

RESPONSIBILITY FOR LEARNING OUTCOME

The University assumes social responsibility for the fact, that the acquired competencies will be useful for the formation of personal success and professional realization.

INNOVATION AND CREATIVITY

We are always in search and implementation of new forms and methods in teaching for constant improvement.

ACTIVE CITIZENSHIP

We take social responsibility for the processes taking place in the city, the region, the country and the world.

There are two colleges on the basis of the University: Ivano-Frankivsk Finance Commercial Cooperative College named after S.Granat and Professional College of Higher Educational Institution "King Danylo University". The institution trains specialists in 16 specialities, namely:

Accounting and taxation;
Advertising and public relations;
Architecture and town planning;
Building and civil engineering;
Business, trade and exchange;
Choreography;
Computer engineering;
Design;
Finance, banking and insurance;
Hotel, restaurant and catering;

Software engineering;
Tourism;
Theology.

SCIENCE

Scientific and research work at King Danylo University is an integral part of the activity of the higher educational establishment in the training of highly qualified specialists, ensuring the development of education and science of our state. It is based on the close integration of education and research within the university, including the use of research in student learning and practice.

The University's teaching staff constantly cooperates in the scientific sphere with the leading universities of Ukraine, Poland, Belarus, Estonia, Georgia, Great Britain, Germany and others. Representatives of ministries and departments of local authorities are constantly involved in conducting of scientific events.

Every year, the University holds nationwide, regional and inter-university scientific and practical conferences, round tables and scientific and practical seminars.

Student Life

Our University is the space of our realization and freedom. The daily work of the entire collective is aimed at making it so. Not everything works, it's true.

Students, lecturers and management are a big family, we are happy together and create together our space of success!

And what is the ideal University for students? The answer is simple: interesting learning and interesting partying at uni.

International activity

The international priority of King Danylo University is to focus on the development, expansion and strengthening of international relations and the authority of the institution in the world educational and scientific community.

The main areas of international activity and cooperation are:

Development of international and domestic partnerships;

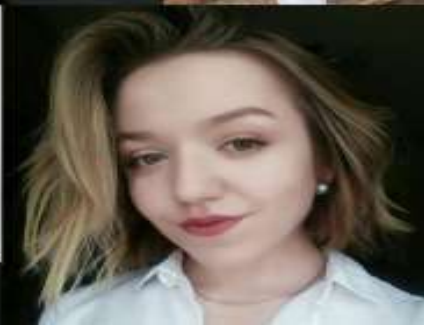

Implementation of academic mobility programs;

Grant activity;

Organizational support of trips of employees abroad and receptions of foreign delegations;

Promotional (image) activities.

We are open to cooperation!
